Technical Data

Combined - l/100km
CO₂ emissions - g/km

The values of fuel consumptions, CO₂ emissions, energy consumptions and ranges shown are determined according to the European Regulation (EC) 715 / 2007 in the version applicable at the time of type approval. The figures refer to the WLTP testcycle according to directive (EC) 1151 / 2017 and may vary depending on the optional equipment selected. The range shown considers different configurations of the selected model and are not part of any offer made, rather they are solely for the purpose of comparing different kinds of vehicle. For further information about the official fuel consumption and the specific CO₂ emission of new passenger cars can be taken out of the 'handbook of fuel consumption, the CO₂ emission and power consumption of new passenger cars', which is available at all selling points.
